Subject: Microsoft Settlement

To whom it may concern:

I would urge the government and the USDOJ to retain the settlement reached. The sentiments of the other nine states to continue the warfare is not helpful to the future of my industry.

I work in the software industry, in no way related to Microsoft. But the uncertainty introduced by the litigation has harmed the industry as a whole. It needs to be stopped for the future of our industry and ultimately for the future of the consumer of software.

It is time for the litigation to stop and the right to innovate be validated.

Please affirm the settlement and reject the demands of the greedy nine state attorneys-general.
